- End of Report -

Educational Credential Evaluators (ECE) is a private, nonprofit organization. We are a charter member of the National Association of Credential Evaluation Services (NACES), an organization founded in 1987 in the United States to promote excellence in the field of credential evaluation. NACES® member organizations demonstrate the highest ethical and professional standards of practice through a rigorous membership process.

ECE® reports identify the local equivalent of foreign educational credentials. Our reports are prepared by qualified professional staff, supported by a library of more than 35,000 publications dealing with international and comparative education and more than 350,000 sample educational credentials.

Our reports are statements solely of educational equivalence. We do not make judgments regarding an individual's English proficiency or eligibility for professional licensure, certification, or registration.

Where appropriate, ECE® reports indicate that the academic study was completed at an institution or program that has comparable recognition. This status means that the institution's academic programs and individual courses merit reciprocal recognition by other educational institutions, government agencies, and employers. Official academic recognition differs from one country to another; most countries grant academic recognition through a ministry of education or other governmental agency.

We report the quantity of post-secondary academic study completed in another country as semester hours of credit and secondary academic study as annual units. Our reports represent one year of full-time academic study typically as 5 to 7 annual units for secondary, 30 to 32 semester hours for undergraduate study, and 12 to 24 semester hours for graduate study. Because educational institutions are autonomous, they will accept only those credits or units that meet their degree or diploma requirements. Therefore, the number of credits or units accepted for transfer may be lower than the number of credits or units on an ECE® report.

GRADES

Grades (marks) are converted to the A, B, C, D, F (4-point) grading scale used around the world. Plus (+) and minus (-) grading symbols are not used because they denote a level of grading precision that is not possible to achieve when one grading system is converted to another.

Grade	Points	Description
A	4	Excellent
B	3	Very good
C	2	Average
D	1	Below average
F	0	Failure

Grades not included in the grade average		
Absent	-	Absent from course or exam
Ex	-	Exempt
I	-	Incomplete
IP	-	In progress
P	-	Pass on a pass/fail basis
S	-	Satisfactory completion of academic work where actual grades were not reported or where the grade was "S" on a satisfactory/unsatisfactory basis
Tr	-	Transfer credit granted
W	-	Withdrawn

Grade averages are calculated by dividing the total number of grade points earned by the total number of credits attempted. See example below.

8 credits with A (x 4) = 32 points
8 credits with B (x 3) = 24 points
5 credits with C (x 2) = 10 points
6 credits with D (x 1) = 6 points
Total 27 credits and 72 points

Divide points by credits to calculate grade average:
 $72 \div 27 = 2.67$

ECE® reports are valid for five years. Official copies may be ordered during that period, although we reserve the right to withhold copies. Visit our website at ECE.org/login for further information on ordering copies or if you have questions about the report.

SECURITY FEATURES:

- Chemical Sensitive Paper
- Toner Adhesion
- Micro-printing
- True Watermark
- VOID Technology

- Stains or discoloration on this document may indicate alteration attempt.
- Paper chemistry creates a bond between laser toner and paper fibers. Alteration attempts result in visible paper damage.
- Small type in box surrounding this section appears as dotted line when copied.
- Hold document to a light source to view chain-link pattern. Cannot be copied.
- When photocopied, the word "VOID" appears prominently across the face of the document.

The square on an original transcript is printed in thermochromic ink. When rubbed or breathed on, it will fade, then gradually return to normal.
